Government Head Announces Policy On Price Control

Oil Industry Must Be Developed in the Interests of the People of Alberta—Abuses Will Be Eliminated

Declaring that serious consideration is being given by the government to the wasteful and unnecessary duplicating methods adopted not only in the oil and gas industry in this province, but in every other Canadian province, Premier Albert Aberhart on Wednesday pointed out that within its constitutional rights the province was seeking through the McGillivray Royal Commission, now sitting, to ascertain a fair and reasonable price for all oil products.

Right of a province to regulate prices and license businesses within its own borders is backed by a Privy Council judgment and the Alberta Trade and Industry Act gives power to fix and regulate prices. This subject has recently been brought forward through the suspension of several dealers' licenses throughout the province.

"The provincial government is giving the most serious and helpful consideration to the oil and gas industry of Alberta," remarked Premier Aberhart on Wednesday, when interviewed regarding the service station trouble in Edmonton.

Must Be Properly Regulated

"Production and marketing of the oil and gas resources of Alberta constitute one of the major industries of the province and we want them to function in the best interests of the consumers as well as of the producers. This is most important and must be regulated in a proper manner if we desire orderly development," the Premier pointed out most emphatically.

"In view of the tremendous and most phenomenal increase in Turner Valley oil and gas production, and the vital part it is playing not only in Alberta but in the Canadian and British Empire economies as well, the Alberta government," said the Premier, "is devoting no little attention to the manner in which this vast resource is being handled."

"It is our considered opinion that, as the resource is the property of the people of Alberta, the government should see to it that the people get as much out of it as is reasonable. We are seeking to eliminate waste as much as possible and to regulate the distribution of its products at a fair price as will assure sound development."

Conservation Board Established

"Already as a measure of conservation and proper administration of the resources, the Alberta Oil and Gas Conservation Board was established. This board directs and regulates production."

"The matter of price control of the products within the province is certainly one over which the government should exercise some jurisdiction. We have appointed a Royal Commission, headed by Mr. Justice A. A. McGillivray of the appellate division of the Alberta supreme court, to investigate the whole question of production, processing and marketing of oil and gas resources," said the Premier. "This commission also will report on the establishment of a fair price on pipeline charges and on the actual refining costs. Consideration is also being given to the wasteful and unnecessary duplicating methods adopted not only in this province, but in every other province in Canada."

"The object of the government in appointing this commission is to ascertain a fair and reasonable price for

First Tentative Choice Royal Parade Route

TENTATIVE Royal procession route for Their Majesties' visit to Edmonton, June 2, has been approved by the city's five-member Royal Visit committee, it was unofficially reported by a reliable source here Wednesday. The route follows:

Leaving the C.N.R. station on their arrival by special train, the King and Queen will proceed south on 101 street to Macdonald Drive and thence west to the Cenotaph at the intersection of the drive and 102 street. The procession will then move west along Victoria (100) avenue to 112 street and north on 112 to Jasper avenue.

Traveling east on Jasper avenue, the procession will turn south at 100 street and down McLaughlin Hill. The Fifth street bridge road will be followed to the north entrance of the bridge, the procession then turning west along the river road through Victoria park and the municipal golf course to the golf clubhouse, passing under the high level bridge.

At the clubhouse it is suggested that His Majesty might conduct through a loud-speaker system to address children who would be assembled on the river valley slope facing south. It is proposed that the assemblage be massed from 114 or 116 streets to 118 street.

The royal party would then proceed east from the golf links and up the hill under the high level bridge to the legislative buildings.

Island Seizure Bailed Montreal Mayor Declares Quebec Blood Fascists

British Cruiser Devonshire Drops Anchor At Harb'or Of Minorca

LONDON, Feb. 8.—The British cruiser Devonshire, 9,750 tons, arrived today at Minorca, disputed island in the Spanish Balearics, while the cabinet considered measures to prevent Italy and Germany obtaining control of the island.

At the same time officials acknowledged Great Britain had asked General Franco to agree to a truce in the civil war. But they declined to disclose whether Franco had replied or if he had, what his answer was.

Minorca is the only island of the Balearics which the Spanish government has held throughout the war. Neither the admiralty nor the foreign office would discuss the Devonshire's mission at Minorca. Great Britain and France have been at war since the outbreak of Italy's foothold on Mallorca, haven of the Balearic group which lies between France and Sicily, and with her African possessions. It is Italy's principal island, and the islanders are being placed on Mallorca, which together with the third principal island which the group was seized by the Insurgents early in the war.

Charlesworth Reported Will Succeed Gray

LETHBRIDGE, Feb. 8.—Announcement was made today to the Lethbridge Herald by Carl Anderson, president of the Board of Trustees of the Eastern Irrigation District at Brooks, that L. C. Charlesworth, at present director of Water Resources and Irrigation Council for the provincial government, has been invited to become manager of the project.

It is understood that Mr. Charlesworth has accepted the post. He will succeed E. L. Gray, M.L.A., Lethbridge, who recently resigned. The appointment becomes effective on April 1.

Mr. Charlesworth will be superintending the provincial government's drive to raise the "Canadian fund for refugees," will be held in April.

Drive Started To Aid Refugees

OTTAWA, Feb. 8.—The executive of the Canadian National committee for refugees and victims of political persecution last night announced a drive to raise the "Canadian fund for refugees," will be held in April.

House Sees Sympathy For Italy

MONTEAL, Feb. 8.—The Gazette today quotes Mayor Camille Houde as saying in an address that French-Canadians in the province of Quebec are fascists by blood if not by name, and if England should go to war with Italy their sympathies would be with the Italians.

UNITY CHIEF TAKES ISSUE WITH HOUDE

Thinks French-Canadians Certainly Would Be Behind England

MONTEAL, Feb. 8.—Adrian Arcand, Dominion leader of the National Unity party, which advocates French Canadian unity, said today that French-Canadians in the province of Quebec are fascists by blood if not by name, and if England should go to war with Italy their sympathies would be with the Italians.

The original leader of the black shirt group which claimed more than 15,000 members in Quebec, said today that French-Canadians would not be behind England in the event of a war between Italy and France. He said that the French-Canadians would be behind England in the event of a war between Italy and France.

Drive Started To Aid Refugees

OTTAWA, Feb. 8.—The executive of the Canadian National committee for refugees and victims of political persecution last night announced a drive to raise the "Canadian fund for refugees," will be held in April.

It is understood that Mr. Charlesworth has accepted the post. He will succeed E. L. Gray, M.L.A., Lethbridge, who recently resigned. The appointment becomes effective on April 1.

Mr. Charlesworth will be superintending the provincial government's drive to raise the "Canadian fund for refugees," will be held in April.

Fine Tractor Highway Is Now Certain

OTTAWA, Feb. 8.—Final sanction was given Tuesday by Hon. T. A. Crerar, minister of natural resources, to construction of a winter traction road connecting the Peace River division of the Northern Alberta Railways with Great Slave Lake, almost 400 miles farther north.

This will be the greatest roadway of its kind in Canada. It will serve the purpose of a railway and tractor drawing 10 or more trailers will ply along it.

Equipment officials expect that next year the pipeline concentrates from Eldorado mine, gold concentrates from the Yellowknife mines and the fish from Great Slave Lake will be hauled to the railway over this road.

DIRECT CONNECTION

For the return trip food supplies and construction materials will be hauled north. It will furnish a direct connection between the fields and the farm lands around Fort Vermilion in northern Alberta and the Peace River district.

In the past the only communication with the Peace River district was by air in the winter and in the summer most of the supplies went by water, through the Peace River and the Peace River delta.

There was considerable doubt whether the winter road would link up the Peace River division of the railway with the Peace River district.

Although the distance was less than 400 miles to Great Slave Lake, it was a major task.

MACKENZIE TO DEFEND BREN GUN CONTRACT

Minister Of Defence To Make Long-Awaited Speech Today

OTTAWA, Feb. 8.—Hon. J. M. MacKenzie, minister of defence, today took the floor in the House of Commons to defend the Bren gun contract, today takes the floor to defend the Bren gun contract.

His long-awaited speech will be the first public utterance of the defence minister since he was appointed to the post. He will discuss the Bren gun contract, today takes the floor to defend the Bren gun contract.

GERMAN HOCKEY STARS DEFEAT BRITAIN 10 TO 0

ZURICH, Switzerland, Feb. 8.—Trail Smoke Eaters came from behind to score two goals in the last ten minutes of the match today, to defeat the British team 10 to 0.

1,000 Killed As Insurgent Planes Bombard Refugees

BOMBING of the Spanish frontier, Feb. 8.—Some 1,000 persons were killed by Spanish insurgent planes today, when four transport planes were bombed and machine-gunned in the refugee-congested town of Pulpis.

Missing Farm Hand Located Unharmed

EDMONTON, Feb. 8.—A missing farm hand, a 30-year-old man, Fred Miller, of Carbon, missing since Sunday, was located today at the home of his sister, Mrs. Alice Miller, after a two-day search by police and friends, yesterday after he was located.

Heads Cattle Club

TORONTO, Feb. 8.—W. S. Wallingford, Vancouver, was elected president of the Jersey Cattle Club at the annual meeting of the club here yesterday.

Montreal In Tempest Over Houde's Talk

MONTEAL, Jan. 8.—Premier Camille Houde's speech in Montreal yesterday about the French-Canadian situation in Quebec was the cause of a great deal of discussion in the city.

Mr. Houde's speech, which was a criticism of the French-Canadian situation in Quebec, was the cause of a great deal of discussion in the city.

MUNRO'S RINK IS ELIMINATED BY GILCHRIST

Last Year's Grand Challenge Winner Goes Under 10 to 10

Wednesday morning's play in the Grand Challenge and Bank of Montreal competition for the annual trophy of the Alberta Curling Association saw a narrow victory for the team of Gilchrist over the team of Munro.

The team of Gilchrist, consisting of the late Mr. Munro, won the match by a score of 10 to 10.

Boreas Puts On Regular Igloo Show

Plunging to a new low for the new year, King Boreas crawled from his igloo to a winter show and let Edmontonians see in 44 degrees below (official). Boreas and private weather show the readings at 50 below and lower. At 10 below this afternoon the glass stood at 27 below.

HOUSING ACT DISCUSSED AT SECRET MEET

Members Told Home Loans Exempt From Debt Law Under Bill

Discussions of Housing Act provisions occupied the social credit caucus for the major portion of the Wednesday morning sitting. It was learned during the non-public session that the Housing Act, which will be introduced into the house by Hon. J. M. MacKenzie, minister of defence, was discussed by the caucus.

An amendment bill to the Housing Act, which will be introduced into the house by Hon. J. M. MacKenzie, minister of defence, was discussed by the caucus.

It was also learned that the Housing Act, which will be introduced into the house by Hon. J. M. MacKenzie, minister of defence, was discussed by the caucus.

Good News for All Students

The Bulletin's offer to its readers of the World's Popular Encyclopedia at the amazingly low gift price of 30¢ per volume and coupons has brought hundreds of requests how to start getting volumes 1, 2, 3, 4 and 5 now and continue each week to get a volume until the complete set of 12 volumes is obtained.

Thousands of Bulletin readers are getting these sets for their children going to school. It answers every question in an authoritative manner, clear to every boy and girl needing assistance. Give your children and coupons has brought hundreds of requests how to start getting volumes 1, 2, 3, 4 and 5 now and continue each week to get a volume until the complete set of 12 volumes is obtained.

Turn now to page 2 and fill out coupon — your set. DO IT NOW!

YOU ASKED 44 BELOW THAT'S ALL

Plunging to a new low for the new year, King Boreas crawled from his igloo to a winter show and let Edmontonians see in 44 degrees below (official). Boreas and private weather show the readings at 50 below and lower. At 10 below this afternoon the glass stood at 27 below.

Edmonton was balmy compared to the weather in the north, where temperatures plummeted to 60 degrees below the zero line to set up a new low for the season in the far north.

The Edmonton reading was the lowest since the thermometer was set up on December 31, last year, and the lowest since the thermometer was set up on December 31, last year.

Average temperature Tuesday was 32.5 below as compared to 30.5 below on the same day last year.

Heavy fog accompanied the lowering temperatures, limiting visibility to less than a block. Street cars and automobiles were running with lights on Wednesday morning.

Citizens were urged to be careful of the icy sidewalks and to be careful of the icy sidewalks and to be careful of the icy sidewalks.

NEW PLAN TO INSURE CROPS IS ADVOCATED

Would Take Money Now Paid Farmers In Bonuses

REGINA, Feb. 7.—Establishment of a system of crop insurance for western Canada, with the money now paid to farmers by way of bonuses, was suggested in the Saskatchewan legislature last night by J. G. Taggart, minister of agriculture, as the possible solution to western Canada's wheat problem.

The huge sum paid to western farmers this year by way of bonuses might be utilized to form the nucleus of a system of crop insurance that would extend equal advantages to all farmers, he said.

Mr. Taggart's suggestion for the inauguration of crop insurance came during a lengthy debate on an amendment moved by L. H. Hantelmann (C.P.F. Brown) to a resolution sponsored by M. D. Hantelmann (L.A. River).

The original motion left the door open for the inauguration by the federal government of "some equitable method of assistance for the marketing of western grain. The amendment called for the payment of a fixed minimum price established at not less than the cost of production plus an adequate standard of living as established by the research boards of the universities at Manitoba, Alberta and Saskatchewan.

The debate was adjourned by J. A. Young (C.C.F. Biggar), without any decision being reached.

No More!

"If he, if he's back to school you go," said Hollywood's Board of Education to Evelyn Atchison, Bert Carroll's daughter, after she was found lying in the road. Evelyn will be 18 old enough to forget about her father's latest rescue will remain a beautiful member of the cast.

INJURED MAN IS BROUGHT DOWN MOUNTAIN SIDE

Trapper On Last Lap Of Trip For Hospital Treatment

MISSION CITY, N.C., Feb. 8.—Leonard St. Andrew, 25-year-old trapper who had lain injured in a mountain cabin for 11 days, was on the last leg of a trip to this Fraser Valley city for hospital treatment today.

Brought down the slopes of Cypress mountain by a nine-man rescue party, St. Andrew was being rushed to hospital here for emergency operation on the tendons of the foot he accidentally cut with an axe Jan. 29.

PARTY ON SNOWSHOES
At midnight last night the party reached a cabin about 10 miles east of here after hauling the injured man down the mountain side. All were on snowshoes.

Although weak from loss of blood, St. Andrew was reported to be in good condition even though he had lain in the cabin since the accident while two previous rescue parties tried to bring him here. Earlier efforts were frustrated by deep snow.

WIDE RUNDOWN
Wide rounds of the seven-foot sled held it on the surface of the snow, continuing fast had deepened to nearly half a foot. The sled, with St. Andrew lashed down, was hauled by a team of dogs down the 3,000-foot slope. The sled was hauled to reach hospital later today.

Buck Tells What He Would Do If Elected Premier

TORONTO, Feb. 8.—Tim Buck, secretary of the Communist Party of Canada, told the Central Young Men's Christian Association Disfranchisement Club here last night that if he were elected premier of Canada, he would immediately call for a new constitution, amend the British North America Act and call for a new parliament. He said he believed it absolutely necessary that unemployment insurance be put into motion in Canada.

PROTEST SLASH ESTIMATES FOR SPORT FISHING

CALGARY, Feb. 8.—An appeal to fish and game associations, boards of trade and other organizations to protest against the government's estimate of the cost of sport fishing in the province was issued by V. A. Newhall, chairman of the Alberta Fish and Game Association.

The present government, Mr. Newhall declared, has shown a willingness to recognize sport fishing as a tourist attraction and incentive stocking of streams with trout, together with recommendations of establishment of hatcheries.

Yesterday Mr. Newhall received word from Edmonton the estimate in the budget for improving fishery was to be cut out. "If this is done," he declared "it will be a slap in the face to the anglers who should be undertaken in a program which requires two years in best growing conditions to grow fish to sport size and sometimes four to five years are required."

Church Endorses Campaign Against Social Diseases

CALGARY, Feb. 8.—The Calgary Presbytery of the United Church of Canada Tuesday endorsed the Calgary Youth Council's campaign against social diseases, when a report was received from Rev. Dr. Warwick F. Kelloway, chairman of the committee of evangelism and social service.

Opposition was registered to the passing of a bill in the federal parliament to legalize sweepstakes as a "way of life contrary to the principles and the spirit of christianity and to the full well-being of the nation."

Dr. Chestnut Dies

WINNIPEG, Feb. 8.—Former superintendent of Winnipeg General Hospital and professor of medicine at the University of Manitoba, Dr. A. Chestnut, 71, died here Tuesday.

Dr. Chestnut came to Canada from County Antrim, Ireland, in 1898 and is survived by his widow and three daughters.

FEEDING THE BIRDS IN WINTERTIME IS AN HUMANE ACT

WINNIPEG, Feb. 8.—Former superintendent of Winnipeg General Hospital and professor of medicine at the University of Manitoba, Dr. A. Chestnut, 71, died here Tuesday.

Dr. Chestnut came to Canada from County Antrim, Ireland, in 1898 and is survived by his widow and three daughters.

Japan Plans New Naval Program

TOKYO, Feb. 8.—Japan's navy minister, Admiral Mitamura, told the diet today Japan was preparing a wholly new naval building program. He did not state details, but said the plan was designed to balance construction with that of other nations.

Montrealers Get Conscience Tinge

MONTREAL, Feb. 8.—Because the city's action might be "misunderstood" or "misrepresented," the civil service committee rescinded Tuesday its permission for use at Alexander market hall an official bulletin for Canadian veterans returning from the Spanish war zone.

Premier Aberhart Announces Policy On Price Control

Continued From Page One
oil products and so to regulate the prices from the wells, through the pipelines to the refineries and finally to the wholesale and retail distributing stations.

"This is wholly within our constitutional rights."

"Our government officials have closely studied the Privy Council's decision upholding the right of the British Columbia government to regulate by licenses and otherwise the distribution of products within its own boundaries."

Outstanding Legal Judgment

The Privy Council decision to which the Premier referred is an outstanding legal judgment and one of far-reaching importance.

In March, 1934, the British Columbia legislature passed an Act entitled the Natural Products Marketing (British Columbia) Act, providing that the government might constitute a British Columbia Marketing Board and arming the Board with powers to act in co-operation and jointly with the Dominion Marketing Board constituted under the Dominion Act, The Natural Products Marketing Act, 1934.

In November, 1935, the Governor-General-in-Council had referred to the supreme court of Canada, the question whether the Dominion Act was ultra vires of the Dominion parliament. On June 17, 1936, the supreme court held that it was ultra vires and their decision was affirmed by the Privy Council.

In the meantime, in April, 1936, the British Columbia legislature had amended the provincial act of 1934 which now is in the form enacted in the revised statutes of British Columbia.

Act Intra Vires Of Province

In the judgment of their Lordships, delivered by Lord Atkin, it is said that "the pith and substance of this act is that it is an act to regulate particular businesses entirely within the province and it is therefore intra vires of the province."

Elsewhere, it is recorded that "The Natural Products Marketing (British Columbia) Act, R.S.C. 1936, ch. 165, amended 1937, ch. 41, is intra vires. It is an act to regulate particular businesses entirely within the province and is therefore legislation with respect to 'Property and Civil Rights in the Province,' and since it is confined to regulating transactions that take place wholly within the province, it does not interfere with the Dominion's exclusive right to legislate with respect to 'The Regulation of Trade and Commerce.'"

The judgment further states that:

"The fact that the act authorized the Lieutenant-Governor-in-Council to vest in the marketing boards the power to impose a license fee is not a ground for holding the Act invalid. If provincial regulation of trade within a province is valid, the ordinary method of regulating trade, i.e., by a system of licenses, must also be admissible. It cannot be an objection to a license plus a fee that is directed both to the regulation of trade and to the provision of revenue."

ITALIAN-SOVIET TRADE ACCORD AGAIN OPERATES

ROME, Feb. 8.—A new Italian-Soviet trade accord ending the year-long stalemate last night of a hard commercial and economic dispute between Italy and the Soviet Union from 400,000,000 to 1,000,000,000 lire (\$30,000,000 to \$100,000,000) will be paid for in Italian lire which will be used for Soviet purchases on the Italian market.

Soviet Russia will largely sell Italian such basic commodities as wheat, oil, rapeseed and timber, in exchange for manufactured goods.

EARLY ACTION IS SEEN IN SURVEY OF ALASKA ROAD

VICTORIA, Feb. 8.—Arrangements for the first meeting of the Canadian Commission on the British Columbia-Alaska highway are now being considered. It is probably take place here early in March according to word received from Ottawa by Arthur Dixon, deputy minister of public works.

The British Columbia government has a vote of \$3,000,000 for preliminary surveys of the proposed route.

Experienced engineers claim it would take at least a year to get the possible routes for the road. Construction, they claim, would take from three to five years.

Woman's Group Executive Tells How Difficulties Overcome

MONTREAL, Feb. 8.—Mrs. J. D. Holman of Toronto, secretary for young women's work on the executive of the Women's Missionary Society of the Presbyterian Church in Canada, will speak Tuesday before a jubilee meeting of Montreal presbyterial adjustments made to meet changing conditions in the society's work.

Mrs. Holman said a residential school at Vegreville, Alta., was closed last June because of 10 miles of snow. She said the school was closed because of 10 miles of snow. She said the school was closed because of 10 miles of snow.

Supplies of the Vegreville hospital have been threatened in a new hospital, now near completion at Rocky Mountain House, an Alberta village of 651 population, also a hospital. It has 17 beds, the hospital sometimes has had to handle as many as 17 patients. First born within its walls, she said, was the village mayor's son.

Fire Chief Would Ban Oil Storage Tanks From City

VANCOUVER, Feb. 8.—All gas tanks and fuel oil tanks stored in the city of Vancouver should be removed from the city, said Fire Chief Archie McDiarmid last night. He told the inquiry into alleged oil storage tanks in the city.

"If I had my way I would not allow any tanks in the city," he said, "but since I can't do that I would ask that all tanks be removed from the city and that the city fire fighting equipment be increased."

Col. Eric Inglis, city attorney-general who is conducting the inquiry, suggested that the fire chief had such power as assistant provincial fire marshal here.

VEGREVILLE'S WOES EXPOSED AT MONTREAL

Woman's Group Executive Tells How Difficulties Overcome

MONTREAL, Feb. 8.—Mrs. J. D. Holman of Toronto, secretary for young women's work on the executive of the Women's Missionary Society of the Presbyterian Church in Canada, will speak Tuesday before a jubilee meeting of Montreal presbyterial adjustments made to meet changing conditions in the society's work.

FARMERS AID ACT EXTENSION UP TO OTTAWA

Law Suspends in Manitoba—Still Active In Alberta

OTTAWA, Feb. 8.—Extension of application of the Farmers' Creditors' Arrangement Act in Manitoba beyond next June 30, when it is scheduled to lapse, will be a question of government policy, beyond discretion of any one minister, government sources said here.

"At Winnipeg Premier John Bracken announced a Manitoba government protest had been forwarded to Ottawa, asking continuation of the act in Manitoba. Premier Bracken said the June 30 termination had been disapproved without knowledge or consent of the (provincial) government."

The much-controverted legislation became a storm centre last session of parliament when the government attempted to obtain legislation giving the finance minister power to terminate the act when it was deemed to have served its purpose.

The act was to continue to operate fully in Saskatchewan and Alberta as well as the government, cover the number of cases before the boards of review in those two provinces was much heavier than in the other provinces.

New York Will Decorate Walls Of Its Subways

NEW YORK, Feb. 8.—The city council, letting the quite full where they might, voted for act under- ground yesterday by a vote of 19 to 6. The resolution was in the form of a recommendation in the board of transportation to renovate the walls of stations in the city-owned subway system with hand-painted murals.

Railroad Dies

SASKATON, Feb. 8.—William Fisher, Canadian National Railway passenger engineer, died at the Saskatoon hospital Monday after a waterlogged car broke in a cab where he was working, filling the car with steam. Although railwaymen asserted that such an accident had never occurred before, they held that Fisher must have died of natural causes, an autopsy was ordered.

Military Victory Not Alone Will Keep Italian Armies Out of Spain

By REYNOLDS PACKARD

British United Press, Exclusive Cable to The Edmonton Bulletin

ROME, Feb. 8.—Intimations that the Italian army would remain in Spain until a "political" as well as military victory had been secured the Nationalists, caused comment yesterday in diplomatic quarters.

This suggestion that military victory alone but an undefined victory in the political field was essential, came as Premier Benito Mussolini prepared to preside over a meeting of the supreme defense council.

Mussolini set the meeting for Tuesday. But instead he flew to Naples, piloting his own three-motored military airplane, with Gen. Giuseppe Valle, under secretary of defense.

It was expected that the meeting would be held here late today. Mussolini having returned at 12:30 p.m. (P.S.T. 8:30).

It was said after Saturday night's meeting of the Fascist Grand council that the Italians in Spain would not come home until the political victory was complete and "The barbaric Bolshevik oppression definitely eliminated."

GOES FURTHER
Virginia Gayda, publicist, often a mouthpiece for the foreign office, took this statement a stage further in the Voice of Italy, the weekly edition of the Voice of Italy, asserting that the Italians would remain "Until the Red army's subversive influences in Spain have been completely eliminated."

He said that action to "liberate Madrid and Valencia would take a few weeks and added:

"Military victory must be flanked by political victory. Experience has shown that foreign intrigue

can insert itself between one and the other. Therefore Italian legations will not abandon Spanish territory until it has been completely purged of Red armies and corrosive attempts of their friends."

VICTORY FOR ITALY

He alleged that foreign volunteers fighting for the Loyalists had been withdrawn.

As to France specifically the newspaper Resto Del Carlino of Bologna, a Fascist party organ, said: "If the Ethiopians" was an Italian victory over 25 nations, the war in Spain represents a victory for Fascist Italy against France.

Lost was must be paid for, and even when there are old accounts to be settled such as Corsica, Tunisia, Nice, Savoy, Djibouti, Suez and so on."

Refugee Doctors For West Urged

REGINA, Feb. 8.—A resolution asking 100 refugee doctors to be brought from Germany to take up practice in rural areas of Saskatchewan has been passed by the rural municipality of Norton, it was learned Tuesday. The municipality intends to submit to the annual convention of the Saskatchewan Association of Rural Municipalities.

Canadian Pilot Killed In Crash

MARKET DRAYTON, Shropshire, Eng. Feb. 8.—Acting Pilot Officer Francis Joseph Hamel, of Chateaufort, was killed in a Royal Air Force plane crash near here Tuesday. Flying Officer Edward Bevin, piloting the training plane, was slightly injured.

How? By meeting the simple requirements a sound banker asks from any borrower, no matter who he is.

First, he wants to know what the money is to be used for. That's reasonable; and I tell him quite frankly all the details.

He wants to know how I propose to pay the money back. So, I give him a list of all outstanding current expenses and my income. That gives him a clear picture of how I stand.

And if I happen to have no security he often lends me money on my own note of hand, with one responsible co-signer. Because we've done business together for years.

That's all there is to it! I have always kept my side of the bargain, paid back as agreed, and established a line of credit that often proved useful when cash was badly needed.

France Shaken Into Realization Nation Behind in Submarines

By R. D. MONTGOMERY

British United Press, Reuters Cable to The Edmonton Bulletin

PARIS, Feb. 8.—The Anglo-German agreement allowing Germany to build up to 50 and 100 submarines, equaling Great Britain's submarine fleet, has shaken France into the realization that she is being outstripped in the submarine race.

As a result, Navy Minister Cautin has been asked to submit a report on the situation to the chamber of deputies naval committee immediately.

French naval experts have concentrated all recent efforts, first, to match Germany's pocket battleships, and then to try to overtake the totalitarian countries as they turned to the new tactics of building 3,000-ton battleships.

FACES INFORTUNITY

With Germany's notification to Britain of the new intention of building more submarines under terms of the Anglo-German naval accord, which equities Germany to

equality in submarines with Britain, France has been faced with a decided inferiority because she must match fleets with both Germany and Italy.

Cautin will be able to report to the chamber's naval committee that France possesses in service 70 submarines, including the world's largest, the Suroret, that ten others are being built, and that building of 12 others will begin as soon as possible.

NO PAID LIMITS

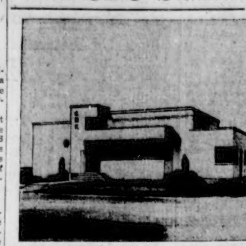

As no paid limits France regarding construction of submarines, she will be able to concentrate her efforts in matching Italy's submarine strength, while simultaneously speeding up completion of two new 3,000-ton capital ships to offset the Italian battleships Littorio, Vittorio, and Veneto, which have just been built.

Pope Determined To Go Through Hectic Program

VATICAN CITY, Feb. 8.—Pope Pius, confined to his bed by a mild case of influenza, expressed determination today to go through with a hectic program of public appearances and religious ceremonies celebrating the anniversary of the Lateran accord of 1929 with Italy and his coronation in 1929.

The Pope cancelled audiences today and "took all precautions" because of his indisposition, said persons having access to his apartments.

New CBC Stations

Completing its second installment of national high power coverage will be the inauguration this spring by CBC of two new 50-kwatt transmitting stations near Watrous, Sask., and Sudbury, N.B. The stations, CBC and CBA, will provide greatly improved coverage and reception in these areas. Features of the new stations are the 400-foot triangular cross section vertical radiators. The radiators, fabricated at the Canadian Bridge Company's Watrous plant, are the first of their kind designed in Canada and are expected to prove more satisfactory than other types now in use. The transmitter buildings are each of different architecture and are well in advance of present day requirements. The above illustration shows an architect's drawing of the transmitter and radiator of CBC, Watrous.

Canada Suffering From Let-Down In Spirit Report Says

MONTREAL, Feb. 8.—Canada is suffering from a "let down of spirit and morale" as a result of years of depression and mounting unemployment, according to a report just published by the Canadian Welfare Council.

The summary is based on returns from 210 public or voluntary welfare agencies throughout the Dominion.

The survey notes that "an abiding weariness, a fatigue seems to be upon the land, a grim acceptance on the part of the taxpayer that relief is here to stay." A terrible, tragic apathy on the part of the people that "we'll never get work again" is noted.

By the end of next month, the summary states, Canada will have spent since 1930 about \$200,000,000 on "direct" relief, unemployment relief works and other relief projects.

Retirement Urged
LONDON, Feb. 8.—The Church of England assembly Tuesday adopted a resolution urging every husband or clergyman, retire at a fixed age, normally 75.

Terry Pin's Tips On

Ghosts are people who don't know enough to leave when the party is over. Ghosts are notoriously poor judges of real estate values, judging by their hang-ons. You can catch them by hiding in a linen closet. They have to get hold of a sheet somehow. If you want someone great, he may haunt you. Remember that the next time you have a phony ballroom. Whistling in the dark will always chase away phantoms. However, when the clanking of chains drags down the whistling, running a few miles will also soothe the nerves somewhat.

OUR CLIMATE HAS NOT CHANGED IN RECENT YEARS

Weather and climate are not the same things. Weather exists in cycles and changes from year to year, but climate is the average over hundreds of years, even ages. When people say the Winters are not so cold as they used to be when they were young, or the Summers hotter, they are speaking only of temporary fluctuations. Climate does not change to amount to anything in one person's lifetime, scientists say. It takes thousands of years for climate to change noticeably.

Curious World

—By William Ferguson

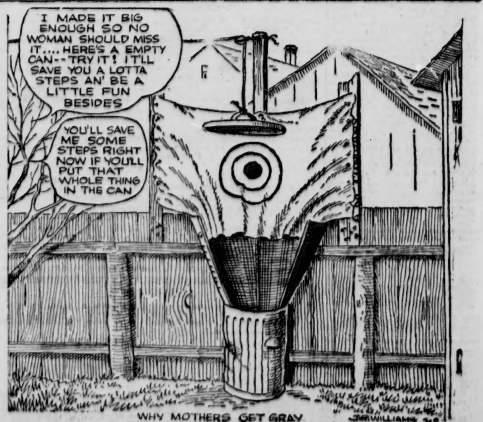

Answer: By examining their antennae, or "feelers." Those of butterflies are threadlike, with enlarged club-like ends, while those of moths resemble small plumes.

NEXT: Why are the tall fins of a whale horizontal?
